About Me

What started out as a passion over 3 years ago has succeeded in being my career and I'm glad to have transitioned into the web3 space. Web3 is the future and I'm dedicated to contribute and have great impact in the space.

Experience

Blockchain Developer - BuidlGuidl, USA, 03/23 - 02/24

Paux Wallet
https://play.google.com/store/apps/details?id=com.paux.wallet
https://github.com/ValentineCodes/paux

Built a safe and secure crypto wallet to generate accounts, manage tokens, transfer funds, interact with dApps and more on multiple EVM-compatible chains. Built with React Native, WalletConnect, Ethersjs, e.t.c

Token Wrapper
https://token-wrapper.vercel.app
https://github.com/ValentineCodes/token-wrapper

Built a decentralized application to wrap native and ERC20 tokens on multiple EVM-compatible chains. Built with Next.js, Solidity, Ethersjs, WalletConnect, e.t.c

theBridge
https://thebridge-alpha.vercel.app/
https://github.com/ValentineCodes/thebridge

Built a decentralized application to bridge native tokens between layer-1 and layer-2 networks. Built with Next.js, Solidity, Node.js, Ethersjs, WalletConnect, e.t.c

Snowman
https://snowman-eight.vercel.app/
https://github.com/ValentineCodes/snowman

Built an ERC4883 Composable NFT to mint a unique snowman and decorate with other NFTs(Hat, Scarf, e.t.c). Built with Next.js, Solidity, Ethersjs, WalletConnect, .e.t.c

Skills

Solidity
Typescript | Javascript
React Native
React | Next.js
TailwindCss
Redux
Firebase
Git | Github

Education

Nnamdi Azikiwe University, Anambra
Computer Science major
